VERONA, Piazza delle Erbe - 1976

I Scolaro è un'azienda nata più di 40 anni fa come antico laboratorio artigianale di ombrelloni DOC. L'ampia gamma di articoli è studiata per il Contract, l'arredo giardino e il settore pubblicitario ed è costituita da ombrelloni in legno e alluminio con palo centrale, palo laterale e con telaio telescopico.

La politica aziendale costantemente rivolta alla soddisfazione del cliente finale consente ora alla Scolaro di esportare i propri prodotti in più di 50 Paesi.

Alla esperienza e capacità manipolativa aggiunge negli anni sempre maggiori tecnologie per migliorare lo standard qualitativo e da semplice prodotto per riparare dal sole ne ha fatto un elegante strumento per l'arredamento personalizzato.

Il design, le nuove soluzioni tecniche e l'abbinamento dei materiali migliori, segnano l'evoluzione e l'utilizzo dell'ombrellone, il tutto garantito da un processo produttivo interamente italiano.

UK The company Scolaro was established 40 years ago and produced artisan wooden parasols. Our wide range of articles is studied for the Contract, the garden furniture and the promotional branch. It includes wooden and aluminium parasols with central pole, side post and telescopic frame.

Our company's policy is constantly seeking to customer satisfaction and allows now to export our products in more 'than 50 countries.

The experience and manipulative skill added over the years more and more technologies to improve the quality standard and a simple product developed to shelter from the sun has become an elegant tool to personalize smartly furnishing.

The design, new technical solutions and the combination of the best materials, mark the evolution and use of the parasol, guaranteed by an entirely Italian production process.

I nostri articoli sono progettati, sviluppati e prodotti interamente all'interno della nostra azienda con sede in Italia. Particolare cura per la rifinitura e il controllo di qualità sono parte integrante della nostra politica.

Grazie ai materiali impiegati e ai dispositivi tecnici i nostri articoli sono particolarmente robusti e adatti per un uso intenso e professionale. L'utilizzo di tessuti acrilici impermeabili, di legno, acciaio e alluminio trattati ne garantiscono una lunga vita.

La ditta Scolaro presta particolare attenzione alla facilità di manutenzione e alla disponibilità di componenti di ricambio garantita nel tempo.

Al raggiungimento di tali risultati ha sempre collaborato l'Ombrellificio D'Incà che tuttora si occupa della confezione delle coperture.

Our products are designed, developed and manufactured entirely inside our company based in Italy. Special care for finishing and quality control are an integral part of our policy.

Thanks to the materials used and the technical equipment, our items are strong and suitable for heavy and professional employ.

The use of waterproof acrylic fabrics, treated wood, steel and aluminium grant a long life.

Particular attention for an easy maintenance and the availability' of spare parts is guaranteed over time. To the achievement of these results has always cooperated the company Ombrellificio D'Incà, that still takes care of the parasol cover manufacture.

Politica ambientale

Consideriamo fondamentale che le nostre attività siano svolte nel rispetto dell'ambiente, riducendo il più possibile i propri impatti e le fonti di inquinamento, gestendo in modo ottimale le risorse e promuovendo la riduzione e il corretto smaltimento dei rifiuti.

La nostra politica ambientale si ispira si seguenti principi:

- La riduzione dell'impatto ambientale e il miglioramento delle prestazioni ambientali e degli standard di sicurezza negli ambienti di lavoro rientrano tra i criteri che concorrono alla definizione delle strategie aziendali.
- La consapevolezza di ciascuno (proprietà, dipendenti, collaboratori, fornitori) in merito alle implicazioni ambientali e di sicurezza delle proprie attività costituiscono elemento indispensabile per il miglioramento delle prestazioni di tutta l'azienda.

Ogni individuo ha il potere di fare del mondo un posto migliore.

Environmental Policy

We consider it fundamental that our activities are carried out with respect for the environment, reducing as much as possible their impacts and sources of pollution, optimally managing resources and promoting the reduction and proper disposal of waste.

Our environmental policy is inspired by the following principles:

- Reducing environmental impact and improving environmental performance and safety standards in the workplace are among the criteria that contribute to the definition of corporate strategies.
- The awareness of each (property, employees, collaborators, suppliers) regarding the environmental and safety implications of their activities are indispensable elements for improving the performance of the entire company.

Everyone has the power to make the world a better place.

Revo

Registered Community Design (RCD)

I
Ombrellone rivoluzionario nello stile e costruzione.
Diventa un oggetto di design minimalistico con un nuovo concetto dell'ombra. Ombrellone di piccole dimensioni con palo a 2 pezzi. Adatto per la spiaggia e i balconi.

UK
Revolutionary parasol in style and construction.
It becomes an object of design with a minimalistic, new concept of the shadow. Small parasol with pole divided into 2 parts.
Suitable for use in bathing, pools, balconies and terraces.

D
Revolutionaerer Sonnenschirm in der Art und im Bau.
Der Schirm verwandelt sich in ein Designobjekt mit minimalistischem und neuem Konzept des Schattens.
Kleiner Sonnenschirm mit 2-teiligem Mast. Geeignet für den Einsatz am Meer, Balkone und Terrassen.

F
Parasol révolutionnaire dans son style et sa réalisation. Ce parasol au design minimaliste vous séduira par son nouveau concept de l'ombre. Parasol petit avec mât divisée en deux parties. Adapté aux stations balnéaires, balcons et terrasses.

E
Parasol revolucionario en el estilo y en la construcción.
Se convierte en un objeto de diseño minimalista, con un nuevo concepto de la sombra. Parasol pequeño con poste en dos partes. Apto para un uso en las estaciónes balnearias, balcones y terrazas.

NL
Revolutionaire parasol qua model én vormgeving.
Deze parasol ontvouwt zich als een designobject en zorgt als zodanig ook voor een nieuw schaduwconcept.
Kleine parasol. Pole verdeeld in twee delen. Ook ideaal voor strand, op balkons en terrassen.

I
Palo alluminio diametro 40mm. Stecche in acciaio verniciato.Componenti in nylon colore bianco.

UK

Vela

I
L'ombrellone Vela ridefinisce il concetto e l'architettura dell'ombra, inedito e fuori dagli schemi. Il design della copertura si evolve lasciandosi ispirare dal mare e sagomare dal vento, ottenendo linee sinuose ed ergonomiche. Dalla fusione armonica tra un ombrellone e una vela nasce una sinergia tra resistenza dei materiali e leggerezza delle forme. Un oggetto unico per valorizzare il Vostro ambiente esterno.

UK
The parasol Vela redefines the concept and architecture of the shadow, unusual and unconventional.
The cover design evolves taking inspiration from the sea and is shaped by the wind, resulting in sinuous and ergonomic lines. From the harmonic fusion between a parasol and a sail, a synergy between material strength and lightness of form, takes shape. A unique item to enhance your outdoor environment.

D
Der Sonnenschirm Vela definiert den Begriff und die Architektur des Schattens, ungewöhnlich und unkonventionell. Das Design der Bespannung laesst sich vom Meer inspirieren und durch den Wind modeln. Ergebnis sind ergonomische und gewundene Linien. Die Kombination aus Schirm und Segel ergibt eine Synergie zwischen Kraft und Leichtigkeit. Ein einzigartiger Schirm der die Aussenausstattung aufwertet.

F
Le parasol Vela redéfinit le concept et l'architecture de l'ombre, insolite et non conventionnelle.
La conception de la couverture évolue en s'inspirant de la mer et façonné par le vent, ce qui entraîne des lignes sinueuses et ergonomique. De la fusion harmonieuse entre un parasol et une voile né une synergie entre la résistance des matériaux et la légèreté de la forme. Un article unique pour améliorer votre environnement extérieur.

E
El Parasol Vela redefine el concepto y la arquitectura de la sombra, nuevo y poco convencional.
El diseño del tejido evoluciona inspirándose en el mar y las formas que toma el viento, consiguiendo líneas sinuosas y ergonómicas. De la unión armónica entre un parasol y una vela, nace una sinergia entre la resistencia de los materiales y la ligereza de las formas, un objeto único para mejorar su ambiente al aire libre.

NL
De parasol VELA geeft het begrip schaduw anders weer, ongewoon en onconventioneel.
De vormgever van het doek liet zich inspireren door de zee en de wind. Het resultaat is ergonomisch met strakke lijnen.
Door de harmonieuze samenvoeging van een parasol en een zeil ontstaat een synergie tussen stabiliteit van materialen en luchtigheid van de vormgeving. Een unieke parasol, die een grote bijdrage levert aan de uitstraling van ieder terras.

Palladio Telescopic

I
La versione telescopica, progettata e sviluppata per prima da Scolaro, propone una apertura e chiusura dell'ombrellone facile e funzionale al di sopra di tavoli e sedie.

UK
The telescopic version Palladio, planed and developed first by Scolaro, offers an easy and functional opening and closing over tables and chairs

D
Die Teleskopversion Palladio, die Scolaro als Erster entwickelt und angeboten hat, bietet eine einfache und funktionelle Oeffnung und Schliessung oberhalb von Tischen und Stuehlen an.

F
La ligne Palladio télescopique, que Scolaro a projeté et développé par premier, offre une ouverture et fermeture facile et fonctionnel.

E
La versión telescópica, planeada y desarrollada por la primera vez de Scolaro, propone una abertura y un cierre de la sombrilla fácil y funcional por encima de mesas y sillas.

NL
De telescoopversie, die Scolaro als eerste ontwikkeld heeft, biedt een eenvoudige oplossing om ook grote parasols (Ø 5,00 mtr.) boven de tafel te laten sluiten.

500 | 400x400 | 300x400

I
Sistema di apertura telescopico. Telaio in legno Iroko selezionato, trattato con vernice protettiva per esterni.

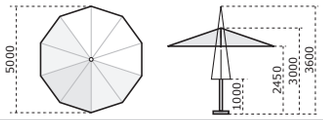

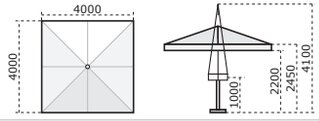

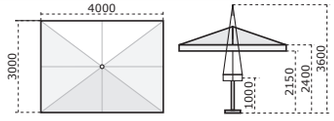

UK
Telescopic opening system. Frame: Selected Iroko wood. Varnished and treated.

D
Teleskopoeffnungssystem. Gestell: Erstklassiges Irokoholz mit umweltfreundlicher Schutzlasur.

F
Ouverture telescopique. Armature: Bois Iroko sélectionné, traité avec un vernis protecteur.

E
Sistema de apertura telescópica. Estructura: Iroko con recubrimientos protectores para uso en exteriores.

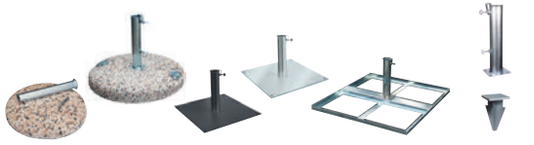

NL
Telescoop systeem voor het openen en sluiten van de parasol boven de tafel. Mast en baleinen: Iroko, milieuvriendelijk behandeld.

Galileo Dark

I
Ombrellone con sistema di apertura retrattile permette la facile chiusura dell'ombrellone anche in presenza di arredo. Si tratta del migliore sistema presente nel mercato perché Scolaro, nel progettare e sviluppare ha tenuto conto di: apertura e inclinazione facilitata, estetica, molta attenzione nel prevedere eventuale assistenza o facile riparazione anche ad opera dell'utente finale.
Il sistema di inclinazione progettato indipendente dall'apertura e chiusura rende questo modello la migliore soluzione presente nel mercato.

UK
Parasol with opening system close on the support that allows an easy closing of the parasol without moving the furniture. It's the best system on the market that Scolaro has developed considering: functionality of the system, aesthetics, special attention in foreseeing a possible assistance or easy restore by the final customer.
The inclination system is planned independently from the opening and closing and makes therefore this model the best solution in the market.

D
Schirm mit einziehbarem Oeffnungssystem oberhalb von Tischen und Stuehlen. Scolaro hat dieses einzigartige System auf dem Markt entwickelt und besondere Beachtung auf folgende Punkte geschenkt: Funktionalitaet des Systems, Aesthetik, einfacher Austausch aller einzelnen Teilen. Einzigartiges Model.
Neigung und Oeffenungs- und Schliessungssystem sind ganz unabhaengig.

F
Parasol avec système rétractile au-dessus des tables et chaises. Il s'agit du meilleur système développé sur le marché par Scolaro en tenant compte: du caractère fonctionnel, de l'esthétique, et d'une attention spéciale pour une éventuelle assistance et réparation de la part de l'utilisateur final.
Le système d'inclinaison conçu indépendamment de l'ouverture et de la fermeture rend ce modèle la meilleure solution sur le marché.

E
Parasole con sistema de apertura retráctil, permite el cierre fácil de la sombrilla, sin mover el mueble.
Este es el mejor sistema del mercado que Scolaro ha desarrollado teniendo en cuenta: Funcionalidad del sistema, Estética, Atención especial al prever una posible asistencia o fácil reparación por el cliente final.
El sistema de inclinación diseñado independientemente del de apertura y cierre , hace que éste modelo sea la mejor solución presente en el mercado.

NL
Nieuw systeem voor het openen en sluiten van de zwevende parasol, zonder uw tuinmeubilair daarvoor te moeten verplaatsen. De parasol hoeft nu niet meer verwijderd te worden als u deze niet gebruikt, maar wordt bevestigd aan de mast. Dus geen storende parasol en parasolarm meer boven uw tuinmeubilair als de parasol niet als zodanig gebruikt wordt. Dit unieke systeem is door Scolaro ontwikkeld, waarbij extra aandacht besteed is aan belangrijke punten zoals: Functionaliteit, Vormgeving, Aan het mogelijk vervangen van onderdelen door de consument is extra aandacht besteed. Enige in zijn soort op de parasolmarkt dankzij het onafhankelijke open- en sluitsysteem.

Galileo Starwhite New

I
Il modello Galileo Retrattile, già molto apprezzato per gli accorgimenti tecnici e per la praticità di utilizzo, è ora disponibile anche con il telaio verniciato a polveri in colore starwhite opaco.
Questa variante rende il Galileo White ancora più elegante e sofisticato.

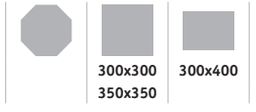

UK
The model Galileo Retractable, much appreciated for the technical and practical use, is now also available with the frame powder coated in starwhite matt.
This variant makes the Galileo Starwhite even more elegant and sophisticated.

D
Das Modell Galileo Retractable, bisher insbesondere fuer den technischen und praktischen Einsatz geschätzt, ist nun auch mit pulverbeschichtetem Gestell in Farbe weiß starwhite matt erhältlich.
Diese Variante macht Galileo Starwhite noch eleganter und raffinierter.

F

I

Queste tabelle sono indicative e prevedono che il pavimento o il terreno di appoggio sia perfettamente piano e regolare. Gli ombrelloni e i rispettivi componenti delle basi devono essere assemblati correttamente rispettando le istruzioni di montaggio. La stabilità degli ombrelloni può variare nel caso di condizioni atmosferiche particolari. L'utilizzatore finale è responsabile del corretto uso dell'ombrellone. Nessuna rivalsa può essere fatta sul produttore.

UK

This schedule considers statics calculation and foresees that the floor where the parasol has to be positioned is perfectly flat and regular. The parasols and components have to be assembled correctly and respecting the assembly instruction. The schedule has to be considered indicative because many variables that depend from the area of employ and position of the parasols are not foreseeable. No rights can be derived from this. The use of a parasol is always on your own responsibility.

D

Diese Aufstellung beinhaltet statistische Kalkulationen und sieht vor, dass der Schirm auf einem ebenen und regelmaessigen Boden positioniert wird. Der Schirm und die Bestandteile des Staenders muessen gemaess Anbauanleitungen montiert werden. Die Stabilitaet der Schirme kann auf Grund besonderer klimatischen Konditionen aendern. Der Endbenutzer ist fuer die ordnungsgemaesse Verwendung des Schirmes verantwortlich.

F

Ces tableaux sont à titre indicatif et ils prévoient que la surface sur laquelle est implanté le parasol soit parfaitement plane et lisse. Les parasols et les éléments respectifs des bases doivent être assemblés en respectant scrupuleusement les instructions de montage. La stabilité des parasols peut varier dans le cas de conditions atmosphériques particulières et dépend du lieu et de l'utilisation propre à chaque utilisateur (le parasol doit être fermé en cas de vent fort et/ou de mauvaises conditions météorologiques).

E

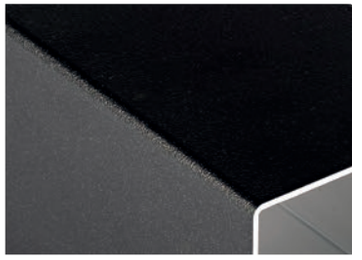

Estos cuadros son indicativos y requieren que el suelo o el apoyo de tierra sea perfectamente plano y liso. El parasol y los respectivos componentes de la base deben ser montados correctamente respetando las instrucciones. La estabilidad de los parasoles puede variar según las condiciones atmosféricas.

NL

This schedule considers statics calculation and foresees that the floor where the parasol has to be positioned is perfectly flat and regular. The parasols and components have to assembled correctly and respecting the assembly instruction. The schedule has to be considered indicative because many variables that depend from the area of employ and position of the parasols are not foreseeable.

CABLAGGIO DORSALE LED RGB

I Kit completo di luci a led ad alta luminosità sviluppato per le esigenze del settore professionale.
Si può applicare a tutti gli ombrelloni a braccio laterale e Capri di nostra produzione anche successivamente alla consegna; non é quindi necessaria una predisposizione all'origine.

Il kit é composto da:
- 4 profili tubolari a Led orientabili IP65 in PMMA satinato, per utilizzo esterno, da applicare alle stecche dell'ombrellone;
- profili a Led disponibili con due diverse lunghezze: 50 cm per gli ombrelloni a braccio e 120 cm per il modello Capri;
- luce a Led bianco 3000K, oppure nuovo impianto multicolore RGB con bianco 3000K integrato;
- batteria ricaricabile con autonomia minima di 8 ore, completa di contenitore IP56 e carica batteria;
- oppure alimentatore elettronico stabilizzato 220Vac - 12Vdc 60W;
- telecomando IR per le versioni multicolore RGB;
- cablaggio completo per utilizzo in esterno;
- clip di fissaggio e accessori per l'applicazione all'ombrellone.

UK Complete hight light LED kit developed for the professional and commercial fit.
Usable on all our cantilever parasols and model Capri, even after the supply.
It is thefefore not necessary to foresee the predisposition from the beginning.

The Led Kit is composed by
- 4 tubular profiles with orientable IP65 in PMMA satin finish, for external use, to be applied on the parasol ribs;
- led profiles available with two different lengths: 50 cm for cantilever parasols and 120 cm for Capri model;
- white Led Light 3000K, or new RGB multi-color system with integrated white 3000K;
- rechargeable battery with a minimum battery life of 8 hours, including IP56 box and battery charger;
- or stabilized electronic power supply 220Vac - 12Vdc 60W;
- IR remote control for multicolor RGB versions;
- complete wiring for outdoor use;
- fixing clips and accessories to apply the lights on the parasol.

USO E MANUTENZIONE

Acciaio Inox

Attenzione:

1. NON USARE i seguenti prodotti su parti in acciaio inox:
   Candeggina o detersivi contenenti candeggina (possono corrodere l'acciaio inox).
   Acido cloridrico o prodotti contenenti cloruro (possono corrodere l'acciaio inox).
2. Sale, calcare o acido (bevande o alimenti) possono scolorare le parti in acciaio inox non prontamente pulite.
3. Prodotti o parti in acciaio inox usati in riva al mare o nell'arredo a bordo piscina richiedono più frequenti pulizie per rimuovere i depositi di cloruro e prevenire la corrosione e l'attacco chimico della superficie esterna.
4. Macchie o ruggine che si presentano sulla superficie di acciaio inox devono essere prontamente pulite.
5. Macchie lasciate a lungo possono divenire permanenti.
6. La ruggine può attaccare chimicamente o scavare l'acciaio inox.

Rimozione di macchie o ruggine:

- Applicare un detersivo non abrasivo specifico per l'acciaio inox.
- Sciacquare abbondantemente con acqua pulita.
- Alla fine asciugare bene per prevenire striature, strofinare nel senso delle fibre.

Metalli verniciati: Ferro – Alluminio

Per la pulizia delle superfici in metallo verniciato utilizzare acqua fredda e detergenti liquidi non abrasivi e non aggressivi. Applicare con panno morbido. È consigliabile, in caso di superfici molto sporche e/o invecchiate, di trattare, dopo la fase di pulizia, con olio di vaselina. Applicare con panno morbido per rivitalizzare le superfici. Nell'eventualità di macchie dovute a depositi calcarei, passare un panno con soluzione di aceto bianco diluito in acqua fredda.
Prima della stagione invernale eseguire una fase di pulizia e quindi trattare superfici, parti mobili e viti con olio di vaselina, utilizzando un panno morbido.
Piccoli graffi o danneggiamenti delle superfici verniciate, dovuti a trasporto, usi impropri o movimentazione, possono essere ritoccati e protetti dalla corrosione con apposita vernice.

Legni: Iroko

Tradizionale legno impiegato nell'arredo da esterni e nel settore nautico.
È un legno duro ad alto contenuto di olio adatto all'uso esterno.
Estremamente longevo, è praticamente inalterabile all'esposizione reiterata agli agenti atmosferici. Se non riceve alcun trattamento protettivo, la superficie prenderà una patina grigio argento, naturale protezione della parte interna del legno.
La tendenza naturale del legno di ingrigire o perdere la luminosità della vernice può essere impedita nella fase iniziale di vita del prodotto. È sufficiente trattare nuovamente le parti in legno con impregnante adatto, facile da trovare nei negozi specializzati.
Si applica con un panno, sulle superfici esposte, una soluzione di acqua e olio incolore.
L'olio deve essere molto diluito. Quando la superficie è asciutta, lucidare con panno.
Macchie superficiali possono essere rimosse intervenendo in modo tempestivo, prima che il legno possa assorbirle in profondità.
Carteggiare la superficie interessata e successivamente lucidare con panno.

La corrispondenza ad alti standard qualitativi e funzionali dei materiali impiegati costituisce la garanzia principale della robustezza e resistenza nel tempo dei prodotti Scolaro. Un comportamento rispettoso di norme di manutenzione ed uso, come specificato di seguito, assicura una durata ancora maggiore.

Le informazioni contenute in questo catalogo o in altri stampati pubblicitari della ditta Scolaro, quali caratteristiche tecniche dei prodotti o dei componenti, dimensioni, schemi di montaggio, colori, ecc., hanno valore meramente indicativo, in ragione delle specifiche tecniche e della evoluzione tecnologica dei prodotti aziendali. Al fine di migliorare la qualità del prodotto, la ditta si riserva il diritto di modificare lo stesso senza alcun preavviso e anche dopo l'accettazione dell'ordine. L'azienda si riserva di apportare modifiche parziali o totali ai prodotti senza preavviso declinando ogni responsabilità su eventuali dati inesatti. Eventuali lievi variazioni di tonalità dei colori e delle finiture rientrano nelle normali caratteristiche dei materiali impiegati. Tutte le differenze sopraindicate non sono tali da modificare significativamente i prodotti stessi e non costituiscono motivo di reso o sostituzione della merce o di contestazione.

Tessuti sintetici: Acrilico – Poliestere

Il tessuto impiegato è trattato antimuffa ed impermeabilizzato per respingere al massimo l'acqua e le macchie mantenendone la traspirabilità. Si raccomanda di seguire le istruzioni seguenti di manutenzione per rendere ottimale la durata del tessuto:
– Togliere periodicamente depositi di polvere, macchie e altro tipo di sporco per evitare che anche dopo la pulizia rimangano tracce visibili.
– È importantissimo assicurarsi che la copertura sia perfettamente asciutta prima di chiudere l'ombrellone.
Durante i mesi di non utilizzo l'ombrellone deve essere riposto in un ambiente asciutto.
Evitare il contatto prolungato con sostanze grasse e/o coloranti che potrebbero venire assorbite dal materiale di rivestimento e dare luogo a macchie permanenti, oltre che deteriorare la struttura del filato. Non usare solventi o detergenti a base di solventi (evitare l'acetone).Utilizzare acqua e detergenti liquidi non abrasivi con PH neutro e incolori. Eventualmente lasciare agire il detergente alcuni minuti. Sciacquare abbondantemente con acqua a temperatura non superiore a 30°C.

Componenti

Le parti in acciaio, la viteria e gli accessori sono trattati antiruggine. Per garantire e assicurare una maggiore durata del prodotto è consigliabile comunque porre l'ombrellone e la base al riparo durante i mesi invernali o durante i periodi di non utilizzo. Durante ogni stagione verificare periodicamente lo stato e la funzionalità dei componenti soprattutto dopo un periodo lungo dove l'ombrellone non sia stato utilizzato.

Avvertenze

Leggere attentamente e conservare le istruzioni di montaggio e il manuale d'uso.
La base va zavorrata con il peso indicato. L'insufficienza di peso sulla base compromette seriamente la stabilità dell'ombrellone.
In caso di vento chiudere sempre l'ombrellone e rimuoverlo dalla struttura. Non lasciare mai l'ombrellone incustodito aperto. Improvvisi colpi di vento possono danneggiare o rovesciare l'ombrellone.
Ricordare sempre che l'ombrellone non è una struttura fissa.
La ditta Scolaro non potrà essere ritenuta responsabile per danni ai prodotti forniti, cose o persone derivanti da un utilizzo scorretto e dal mancato rispetto delle istruzioni e direttive su riportate.

Uso Prodotti

Prima di iniziare la manovra di apertura accertarsi che il telo dell'ombrellone non sia impigliato nelle stecche interne.
Per aprire o chiudere gli ombrelloni girare le manovelle nel senso indicato dalle frecce e dalle diciture "apre" o "chiude": errate manovre possono rompere la corda o il meccanismo.
Non forzare mai le funi o le manovelle: se c'è un impedimento accertarsi della sua origine e rimuovere l'eventuale causa.
Componenti in legno: applicare almeno una volta ogni anno un impregnante.
Corde e parti meccaniche: trattare con olio di vaselina una volta ogni anno prima della stagione invernale. Chiudere gli ombrelloni in presenza di avverse condizioni metereologiche quali vento e pioggia di forte intensità.
Gli ombrelloni Scolaro sono associabili a specifici basamenti per il fissaggio a terra.
Se si sceglie di posizionarli solo tramite zavorra si certifica la loro idoneità ad un uso normale in condizioni di vento moderato.
Nella tabella dedicata vengono riportate le indicazioni sui pesi minimi delle zavorre.
La fase di installazione dell'ombrellone e la sua gestione è responsabilità esclusiva del Cliente.

Garanzia

I prodotti Scolaro sono garantiti per 2 anni da:
-difetti strutturali non dovuti a impropria o mancata manutenzione
-ruggine invasiva non derivante da graffi o abrasioni da uso e non asportabile con normale pulizia e manutenzione.

La garanzia è limitata ad 1 anno per i meccanismi di apertura a manovella.
Per avvalersi della garanzia, è necessario presentare l'articolo difettoso o foto del prodotto. Sono richiesti anche copia della fattura o scontrino. Scolaro declina ogni responsabilità per danni causati a cose o a persone derivanti da uso non corretto del prodotto.

La garanzia prevede la fornitura di pezzi di ricambio o la sostituzione del prodotto dove necessario.
La garanzia non contempla l'intervento in loco o altri costi sostenuti per il mancato uso del prodotto.

La nuova gamma di tessuti in acrilico assicurano un'ottima resistenza dei colori ai raggi UV e una lunga durata nel tempo.
Nuova gamma tessuti acrilico: Sono garantiti da Scolaro per un periodo di 5 anni a seguito di una normale esposizione, all'azione del sole e degli agenti atmosferici in genere.

La garanzia non copre danni derivanti da azioni meccaniche, atti dolosi e cause di forza maggiore. Sono quindi esclusi dalla garanzia danni al tessuto come tagli e abrasioni non rilevati al momento della consegna o derivanti da uso improprio.
Per ulteriori informazioni richiedi le condizioni generali di garanzia.

USE AND MAINTENANCE

Stainless steel

Attention:

1. DO NOT USE THE FOLLOWING PRODUCTS on any parts made of stainless steel:
   Chlorine bleach or detergents containing bleach (they can corrode stainless steel).
   Hydrochloric acid or products containing chlorides (they can corrode stainless steel).
2. Salt, limestone or acids (drinks and food) may discolour parts made of stainless steel if nor cleaned promptly.
3. Products or parts made of stainless steel used near the seaside or for the interior decoration of swimming pools require more frequent cleaning in order to remove chlorites deposited on them and to prevent corrosion and chemical deterioration of the external surfaces.
4. Stains or rust noted on stainless steel surfaces must be cleaned promptly.
5. Stains left in place for long periods may become permanent.
6. Rust may cause chemical reactions or corrode stainless steel.

To remove stains or rust:

- Apply a specific non-abrasive detergent or polish for stainless steel.
- Rinse thoroughly with clean water.
- Lastly, dry thoroughly in order to prevent streaks from occurring, rubbing in the sense of the fibres.

Varnished metals: Iron and Aluminium

To clean surfaces in varnished metals, use cold water and non-abrasive or aggressive liquid detergents.
Apply with a soft cloth. In the case of very dirty and/or aged surfaces, after cleaning, it is advisable to treat them with liquid paraffin. Apply with a soft cloth to revitalize the surfaces. In the event of stains caused by lime deposits on varnishes of coarse structure (eg. antique iron and indian brown) clean them with a cloth and a solution of white wine vinegar diluted in cold water. Before winter, carry out the cleaning phase and then treat the surfaces, moving parts and screws with liquid paraffin, using a soft cloth. Small scratches or damage to the varnished surfaces due to transportation, improper use or handling can be retouched and protected from corrosion with special varnishes.

Wood: Iroko

Traditional wood employed for outdoor furniture and the marine industry. Iroko is a hardwood with a high oil content, suitable for external use. Extremely long-lasting. It is practically unalterable to repeated exposure to atmospheric factors. If not treated, the surface takes a silver-grey coating which is the natural protection from inside the wood, considered an essential part of Iroko's charm.
The natural tendency of wood to turn gray or lose the brightness of the paint can be prevented in the early stages of the product life. The parasol can be restored by a new treatment with proper products easy to find in specialized shops.
It's necessary to apply a solution of water and colourless oil, to exposed surfaces with a cloth. The oil must be highly diluted. When the surface is dry, polish with a cloth. Superficial stains can be removed by intervening in time, before the wood can fully absorb them. Gently sand the surface in question and then polish with a rough cloth.

The connection between the high qualitative and functional standards of the materials used, constitutes the main guarantee of the sturdiness and the resistance of the company's products over time.Respecting the rules of maintenance and use, specified as follows, will ensure the success of these objects, which were devised with Scolaro quality, to last a long time.

The information contained in this brochures or other Scolaro's advertisements prints, such as product specifications or components, dimensions, assembling instruction, colours, etc.., are purely indicative, because of the technical specifications and the technological evolution of the company's products. In order to improve the quality of the product, the company reserves the right to change the same without prior notice and even after acceptance of the order. The company reserves the right to make partial or complete changes to the products without prior notice and declines any responsibility for inaccurate data. Any colour differences and changes of finishing have to be considered normal characteristics of the materials used. These differences do not significantly change the products and aren't reason for return or replacement of the goods or dispute.

Synthetic fabrics: Acryl and Polyester

The fabric is waterproof and anti mould treated to reject water, spots and grant transpiration. Please follow our maintenance instruction to grant the long lasting of the fabric:
- Remove often dust deposits, spots and any type of dirt in order to avoid trails after cleaning.
- It's very important to close the parasol only when it is perfectly dry. During the winter and when the parasol is not employed, it has to be stored in dry environment.
Avoid prolonged contact with oily substances and/or dyes that could be absorbed by the covering material in PVC and cause permanent stains, in addition to damaging the structure of the thread. Do not use solvents or solvent-based detergents (avoid acetone).
Use water and non-abrasive, colourless liquid detergents with a neutral PH. Let the detergent act for a few minutes. Rinse well with water no warmer than 30°C.

Components

The steel components, screws and accessories are anti rust treated. Anyway for a long lasting of the parasol, during the winter and when the it is not employed, the parasol has to be stored in dry environment.
During every season it is necessary to check the functionality of all components, especially after a long period of non-employ.
The company Scolaro is at your disposal for technical assistance.

Directions

- Before use, directions and assembling instructions, which are inside the package, have to be kept and read carefully .
- The base has to be ballasted. An insufficient weight will seriously compromise the stability of the parasol.
- Always remove crank when not in use and keep out of reach of children.
- To avoid damage or personal injury, parasol must be closed and removed from the support when unattended and/or in windy conditions.
Remember always that the parasol is not a fixed construction.
The company Scolaro cannot be held responsible for damages to goods supplied, or injury resulting from improper use and failure to follow instruction and guidelines given on.

Product Employ

Before starting to open the umbrella, make sure that the fabric has not got caught in the internal ribs. To open or close the umbrella, turn the handle in the direction indicated by the arrows and the works "Open" or "Close". Incorrect operation could tear the string or damage the mechanism. Never force the ropes or handles. If they get stuck, check why this has happened and eliminate the possible cause.
Wooden parts: apply a wax-based wood-stainer at least once a year before the winter season.
Close the umbrella when the weather conditions are unsuitable, i.e. strong wind or heavy rain.
Scolaro umbrellas can be combined with special bases developed for the ground fixing.
If it is decided to position a Scolaro umbrella using ballast only, their suitability for use in conditions of moderate wind is certified.
In the specific table the minimum ballast weights are indicated.
The Customer is the sole party responsible for installing and managing the umbrella.

Warranty

Scolaro's products are guaranteed for 2 years:
-structural faults not resulting from improper use or lack maintenance.
-invasive corrosion not produced by scratches or abrasions from use not removable through normal cleaning and maintenance.

The warranty is limited to one year for the opening mechanisms.
To take advantage of the warranty the faulty item must be shown or pictures must be forwarded, together with the invoice or receipt. Scolaro will not be liable for any damage to properties or individuals deriving from an improper use of the product.

The warranty includes the supply of spare parts or the replacement of the product if necessary. The warranty does not include the repair on-site or the refund of costs incurred for non-use of the product.

The new range of acrylic fabrics provide excellent color resistance to UV and a long life.
New range acrylic fabrics: They are guaranteed by Scolaro for a period of five years following a normal exposure to sun, sun's action and weathering.

The warranty does not cover damages caused by mechanical actions, malicious acts and acts of God. Therefore tissue damages such as cuts and abrasion, not recorded at the time of delivery or due to misuse, are excluded from warranty.

For more information please require the general warranty conditions.

PROFESSIONAL HEAVY DUTY
Ombrelloni progettati per uso professionale.
Robusti e adatti per uso intenso.
Developed for a commercial employ. Strong and heavy duty
Stark. Geeignet fuer einen intensiven, gewerblichen Einsatz.

HANDY+FUNCTIONAL
Ombrellone di qualità, ma sviluppato con concetti di praticità e funzionalità.
Quality parasol, developed with concepts of practicality and functionality Qualitaetsschirm, praktisch und leicht einsetzbar.

RETRACTABLE
Ombrellone retrattile. Sistema di apertura e chiusura dell'ombrellone anche in presenza di arredo. Possibilità di inclinazione fino a 60°C.
Retractable parasol. Opening and closing without moving the furniture. Inclination up to 60°C
Einziehbarer Schirm. Oeffnung und Schliessung oberhalb von Tischen und Stuehlen. Neigung bis zu 60°C.

DESIGN AND INNOVATION
Ombrellone dal design innovativo e non convenzionale per creare ambienti moderni ed esclusivi.
Parasol with an innovative and unconventional design to create a modern and exclusive ambiences.
Sonnenschirm mit innovativem und unkonventionellem Design. Fuer moderne und exklusive Milieu.

STANDARD
Ombrelloni a palo centrale. Classici, ma sempre attuali e molto diffusi.
Central pole parasols. Classic, but always popular and widespread.
Mittelmastschirme. Klassisch, aber stets aktuell und stark. verbreitet.

CANTILEVER
Ombrelloni a braccio laterale.
Cantilever parasols.
Pendelschirme.

ELEGANCE
Ombrelloni eleganti. Cura dei dettagli e finiture ricercate.
Elegant parasols. Special care for details and finishing.

BIG SHADE STRUCTURES
Ombrelloni con strutture sviluppate per coprire grandi superfici.
Parasols developed to cover large surfaces.
Sonnenschirme fuer die Beschattung grosser Flaechen.

TELESCOPIC
Ombrelloni a palo centrale con chiusura telescopica.
Central pole parasols with telescopic opening system.
Mittelmastschirme mit teleskopischem Oeffnungsystem.
