ELITE STYLE

Elite Style is a premier manufacturer of high quality outdoor and contract furniture.

Growing, investing and Innovating has been our company's hallmark for decades. Since its incorporation in 2017, the company has grown to become one of the well-known manufacturer of outdoor furniture products to worldwide market. Besides designing, manufacturing, selling our own collection of outdoor furniture, we also manufacture high quality custom made hospitality furniture and offer OEM a.k.a Private label for the furniture industry. Our furniture collections are known as Elite Styile Outdoor Product line.

In line with cutting-edge design trends, Elite Style manufactures furniture that is beautiful yet functional, versatile products, for outdoors. And all combined in an excellence that guides Elite Style towards new solutions for the world of architecture and hospitality.

Our work with an extensive range of materials distinguish us from the rest of the manufacturers. Our range of teak outdoor, stainless steel, powder coated aluminum and wicker furniture collections is universally appealing, aiming to provide a outdoor furniture that significantly enhances the outdoor living.

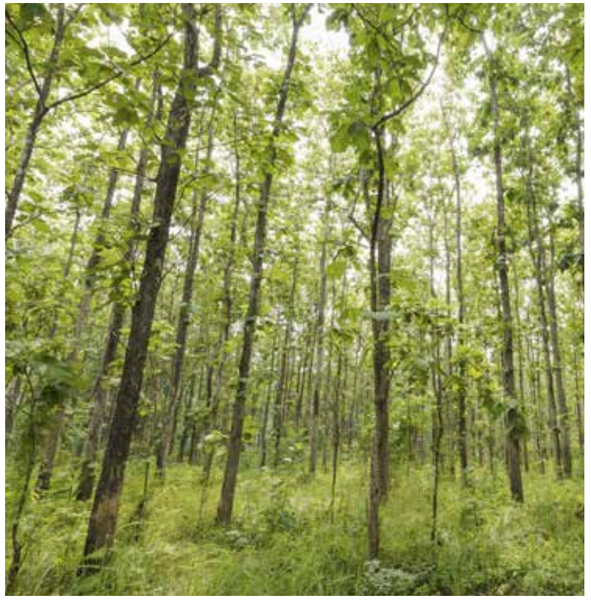

Mission
- Live a wonderful outdoor life with Elite Style

At Elite Style our mission is simple, to make your outdoor living better. A group of passionate people striving hard to bring quality furniture to reshape your outdoor life.

Commitment
This mission statement reflects our desire for the future. This is the mantra that drives us in everything that we do. From design through fulfillment, we continuously strive to provide the best quality by the best service in the industry. One of Elite Style's greatest assets is its people. Years of determination and hard work have helped to establish the competitive manufacturing position the company holds today. Careful attention is paid to scale, proportion and ornamental detail of each product. Delivering high quality fashionable furniture to you is our aim and we compromise nothing to attain this objective. Elite Style provides expertise and quality in the manufacturing of each product, and Strategies each product to pass through all the standards of production.

Management Statement
Our focus with the management team at Elite Style Company is to provide our employees with supportive, training and development and to create an environment of high performance where people can achieve their personal and company goals. Our top management is responsible for consistency, growth, innovation that have distinguish Elite Style across the globe. It defines the long-term strategy of our company. We as a company are continually inspired to embrace new ideas.

Future
Elite Style will create a very successful operation that focus on expanding R&D, adding new CNC machinery and materials to enable new collections. In addition, the company will invest in people, to employ people with passion, people who are experts in their fields, who can contribute in meaningful ways and who can identify with the company's values and mission.

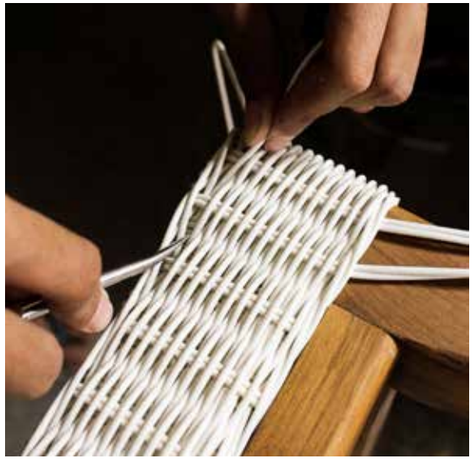

we are social responsible

Elite Style products are manufactured with the greatest care for our en- vironment and the wellbeing of people. We believe that responsibility goes beyond the design and production of furniture. Our production is committed to a sound environmental policy and an ongoing focus on improving working conditions in the countries in which we operate.
This means that no child labour is allowed and that wage levels are fair and in accordance with local legislation.
In addition, we are very conscious about the consumption of resources, about recycling and the cleaning of wastewater. These standards apply to both us and our suppliers and we continually strive to improve condi- tions in the factories.

comfort is our core value

Our core value is comfort in all aspects of our furniture. We have used count- less hours developing and choosing the right designs, technology and materials. Comfort for us is how well you sit or lay, how smooth our furniture functions, the very low maintenance,
Our Elite Style designs can be used all over the world and under any climatic conditions.
Our mission is simple, to make your outdoor living better.

RIVERA

Made with Batyline® fabric, an extremely durable and high quality material consisting of a polyester fiber covered by a coating of PVC, making it nearly impossible to tear. Available in four resistant fading colors. combained with teak wood sourced from sustainable plantations with a reforestation program.

A great masterpiece of modern furniture, combining the nature quality of premium grade teak with Batyline®, the best synthetic fabric ever made. The synergy between this light but extremely strong sling material and the solid teak result in a highly comfortable and durable furniture statement.

SIGNATURE

The SIGNATURE collection combaines durable stainless steel with smooth sanded plantation teak. the slats come in differernt width, creating a round edge, a wire smooth sanded top. We used stainless steel most sutable alloy for outdoor furniture of the highest standard.

The Signature tables use frontslide mechanism, an innovative design developed in Germany , to create sophisticated requirements. In addition, the round table with cross leg design with revolving stainless steel center, is more on the richness of architecture and expression of a space.

Signature Front Slide Extension Table
is using front slide mechanism,
an innovative
design developed in Germany.
Pactical, easy touse,
light and very elegant dining table for your
garden, patio or dining room.

RIVERA

Made with Batyline® fabric, an extremely durable and high quality material consisting of a polyester fiber covered by a coating of PVC, making it nearly impossible to tear. Available in four resistant fading colors. combained with teak wood sourced from sustainable plantations with a reforestation program.

A great masterpiece of modern furniture, combining the nature quality of premium grade teak with Batyline®, the best synthetic fabric ever made. The synergy between this light but extremely strong sling material and the solid teak result in a highly comfortable and durable furniture statement.

PREMIUM BRUSHED TEAK

Our premium weathered teak is a natural teak with a weathered gray finish. This finish is created using multiple processes from oil blocking to PU color coating to glazing and so on. This finish features a dramatic and refined hues that set it apart, giving it a hairline crack and grains which makes it unique and beautiful. Inspired by the rich tones found in nature.

MAINTENANCE

Our Premium weathered teak designs are set apart by the time and care we put into their creation. This finish takes care of itself with its oil coating and makes it perfect for outdoor conditions. No Maintenance needed for years and the color stays. A normal cleaning of furniture is however recommended

Weather Teak
(T2)

Golden Teak
(T1)

TEAK

Teak is a close grained hardwood with high natural oil content.
It is highly resistant to rotting and almost impervious to the effects of sun, rain, frost or snow. These characteristics make it the ideal
timber for all outdoor applications. Many other hardwoods are used for outdoor furniture and some are even marketed
as 'teak substitutes', however, there is no substitute for teak and no other hardwood will perform to the same standard as teak in outdoor conditions.

Only premium grade plantation grown teak is used in Elite Style furniture. The features of premium grade teak are consistent grain structure, the absence of knots, splits or cracks. All teak furniture
comes in natural smooth finish and brushed finish.

MAINTENANCE

Teak does not require any special maintenance routine.Left outside, the exposed surfaces of the
furniture will become a soft silvery grey in color. Besides, weather will cause some surface erosion
leading to slight surface roughness, possible mildew and checking. Checking is a natural process that occurs when teak develops small cracks in the end grain.
However, this does not affect the durability of teak furniture

RECLAIMED TEAK

Reclaimed teak has exposed over the years, created mature seeds, beautiful and rich colors such as forest plantations. It is a very hard weight, strong wood, common
oily to the touch. This oil on teak wood makes it very robust. Most sustainable furniture made from hardwood recycled or reclaimed because it is the most durable and life family-proof. Notches and
scratches are an integral part of the furniture, and an aide memoire of the chronological quality of the wood.

MAINTENANCE

Teak does not require any special maintenance routine. Left outside, the exposed surfaces of the furniture will become a soft silvery grey in color. Besides, weather will cause some surface erosion
leading to slight surface roughness, possible mildew and checking. Checking is a natural process that occurs when teak
develops small cracks in the end grain.
However, this does not affect the durability of teak furniture.

Reclaimed Teak
(T6)

STAINLESS STEEL

We use #304 grade stainless steel in our products. It contains minimum of 18% chromium and 8% nickel to retain an austenitic
structure at all temperatures. Grade #304 is the most versatile and the most widely used of all stainless steels. Its chemical composition, mechanical properties, weld ability and corrosion/ oxidation resistance provide the best allround performance stainless steel.

It is used in all industrial, commercial and domestic felds because of its good corrosion and heat resisting properties. The surface fnish on Stainless Steel is fnely developed and maintained during fnishing process to ensure pleasing aesthetic appearance of Stainless Steel.

MAINTENANCE

Stainless steel is generally resistant to corrosion. Natural hazards such as dust and moisture in the air can attack the finish on this type of outdoor furniture.
A regular cleaning of stainless steel frames is required on a monthly basis to remove the natural deposits, salts. Use fresh water only; spray the frames down
thoroughly at a high hose pressure. A soft dusting cloth can then be used toenhance the surface.

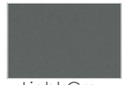

ALUMINUM

An optimum quality; lightweight and weather resistant makes it excellent for outdoor use. Elite Style powder coating process on aluminum frames , adds different colors, scratch proof surface, protection from corrosion to make the furniture pieces classic and timeless. Aluminum features an optimum quality; lightweight and highly weather resistant makes it excellent for outdoor use.

MAINTENANCE

All aluminium components in Elite Style Outdoor furniture are powder-coated making it resistant to corrosion and scratching. Powder-coated aluminium can simply be cleaned with a mild soap and water. Avoid using abrasive cleaning agents and scratching with sharp objects. Remove and clean the cushions, following with cleaning the aluminium components using an all-purpose cleaner, spray with sponge or a soft cloth until all the dirt is gone.

CERAMICS

Our big slab ceramic tiles stands for elegance and luxury. We strive to offer collections using slab ceramic tiles which are tougher and stronger yet look elegant. The slabs are structured on aluminum and stainless steel frames, gives a realistic stone appearance that's easy to maintain. These thin slabs tiles reduce the need of structural load requirement and ensure an easier & faster handling & application. Some of the ceramic slab patterns that Elite Style have kept in stock and ready for production are:

MAINTENANCE

Stone Cleaner removes stains such as wine, marker pen, oil and mould on the surface of natural stone. Also, Stone Stain Protector and color refresher : penetrates natural stone to protect the surface against grease, damp and dirt. Does not gloss and allows the stone to breathe. Does not or barely fade and restores and deepens the color of worn, dark natural stone.

Black Pulpis

Santorini
(TT3)

BATYLINE®

Batyline® is made by a French company, Ferrari, and is widely used in premium outdoor furniture. Batyline® is an extremely durable and high quality material consisting of a polyester fber covered by a coating of PVC, making it nearly impossible to tear. It is 100% synthetic and resistant to rot and mildew. It is highly resistant to UV radiation and fading. It can withstand temperature extremes, ranging from -30C to 70C.

MAINTENANCE

The fact that there is no moisture absorption results in quick-drying action, little sensitivity to staining, and simplicity in cleaning. Batyline® fabrics can be cleaned by just the wipe of a sponge with soapy water. Scouring agents and solvents are to be strictly avoided!
Batyline® fabrics dry very quickly because of their open structure. They allow you to take advantage of the shortest sunny period and stay cool even in full sunshine.

ROPE

polyester and polyester blended ropes are stronger and more abrasion resistant than nylon rope. Unlike nylon rope, polyester has a low stretch factor.
This is characteristic that makes polyester a popular choice for boating, marine and outdoor furniture applications .
Another property of this rope is that it is UV resistant. Below is a list of the traits of polyester rope.

Rope Recta

WICKER
BANANA HAIRLINE

A synthetic wicker that is highly durable, 100% recycleable, environmental friendly, insensitive to temperature differences and harsh weather condition. Chemical formulation helps to overcome degradation problems in wicker against UV rays, moisture, strong wind, pollution, sea water as well as chlorinated water.
the performace of wickers virtually immune to color fading, smudge proof, color throughout, natural look and feel.

MAINTENANCE

Just simply wipe the surface clean by using a damp piece of cloth. A quick wash with mild detergent every three months is also recommended.

TROPICAL VIRO

Elite Style uses Viro and Rehau fiber a premium synthetic Polyethylene wicker as weaving material that come with different colors, patterns, looms and effects. The materials are tear free, weather resistant and colorfast. With all these features the products give a beautiful natural look which never gets old. It is 100% recyclable and resistant to chlorine and salt water. Strong and Durable, Recyclable and Washable Maintenance Free.

MAINTENANCE

In Elite Style Outdoor Synthetic Wicker range the only maintenance required for the synthetic Wicker is an annual clean to get rid of dust and environmental debris (oils, damp) that can be trapped in the mesh or braiding. Wipe it gently with a soft sponge and rinse with water. Rinsing the synthetic wicker with pressurized water provides better results. It is advisable to clean the synthetic fiber before storing it for the winter and at the beginning of its season of regular use.

WICKER
Whitewash - Dark Bronze

All our wicker furniture is hand woven with Viro® and RehauTM fber, both premium synthetic Polyethylene fbers. It is highly flexible, UV and weather resistant.
This fber is designed to be insensitive to temperature differences ranging between -25C-70C. It is 100% recyclable and resistant to chlorine and salt water.
Our fiber is guaranteed for 3 years from delivery to withstand fading, weathering or cracking. The mechanical and physical properties have been tested by the Sentra Teknologi Polimer, Indonesia and the productivity and Standard Board, Singapore in accordance with the test methods issued by the American Society for Testing and Materials (ASTM) and the International Organization for Standardization (ISO).

MAINTENANCE

Being a synthetic material, our all weather wicker outdoor furnitures requires almost no maintenance. If a piece gets dirty, it can simply be hosed off with water. For tougher grime, wash with a mild soap.

Dark Bronze

White Wawsh

WICKER
Kubu White 5mm - Grey Rod 3mm

Detailed all weather wicker Kubu Grey is arise by a sophisticated process which give an aged look and feel like a natural rattan.
While this is a special design of Viro®, yet it is still highly flexible, UV and weather resistant, insensitive to temperature differences ranging between -25C-70C and 100% recyclable and resistant to chlorine and salt water. The guarantee also remain the same as other Viro®'s products.

MAINTENANCE

Being a synthetic material, our all weather wicker outdoor furnitures requires almost no maintenance. If a piece gets dirty, it can simply be hosed off with water. For tougher grime, wash with a mild soap.

CUSHION

This division is well equipped to handle custom made cushions as per the client requirement. You can choose the foam thickness and fabrics of your preferance. The wide variety of material availability provides you an option to choose from very economical cushions to top quality cushions. We keep the stock for all these fabrics to enable us to make timely delivery.

From Sunbrella to Serafi, you have best of the materials available in this industry. We adopt the same principles of strict quality control when producing these
patio cushions for your teak garden furniture or any other patio furniture. All our teak patio cushions are BOX-DOUBLE PIPED and with inner linning. We only use
YKK zippers. All patio cushions have interlock stitch from inside.

STANDARD POLYURETHANE FOAM

Soft yet durable. This foam provides the comfort for many years. Easy to change and covered with inner lining. Production flexibility and good value. A good choice for any teak garden furniture set.

SUNBRELLA®

100% solution Dyed Acrylic fabric. A per- fect fabric for casual furniture.UV resis- tant, resists mildew, rot, and withstands years of normal exposure to sunlight and rain. 3 years manufacturer warranty.

Easy Care

QuickDryFoam®

QUICKDRY SYSTEM
Urecel GuickDry is produced by a sophisticated process called Hydro-Blast Reticulation. This is what gives Urecel GuickDry its unigue porous open-cell structure — and why it completely outperforms closed-cell, non-reticulated,regular foams.

The large, open pores in Urecel GuickDry allow water to drain very rapidly and fresh air to circulate freely and continuously. Urecel GuickDry feels more comfortable and luxurious, but is also stronger and More supportive. That's why our cushions keep their shape. Uregard is an anti-microbial technology which prevents the growth of common moulds and fungus. Uregard protection is built into every Urecel GuickDry cushion.

SUNBRELLA

One of the best ways to keep Sunbrella® brand fabrics looking good is to properly maintain the fabrics. This can be accomplished
by simply brushing off dirt before it becomes imbedded in the fabrics, wiping up spills as soon as they occur or spot cleaning soon
after stains occur.

GENERAL CLEANING
Machine wash in cold water and line dry, or professionally dry clean

ELITE STYLE PROJECT

From a concept to functional solutions to completion, Elite Style delivers empowering service with personalized support throughout the project.

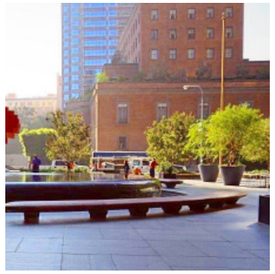

Whether to modify the Elite Style product line, or bringing in Custom furniture designs, our design process has attention to create value of the products to delight your customers. To achieve excellence in quality and service we make sure custom hospitality furniture goes through our R&D section to evaluate the product benchmark and standards. Once a design is approved, the designers work closely with the manufacturing team at our factory to achieve the product. In addition, all the products from material selection to packaging, go through Quality Control phase, which includes tests, rigorous approval to ensure customer satisfaction.
